Your Health Deserves a Closer Look

Your health is your greatest asset. A health screening gives you a clear picture of where you stand. Stay ahead of your health, screen early. Healthway Screening offers five packages to suit different needs and life stages. Select the one that fits you best.

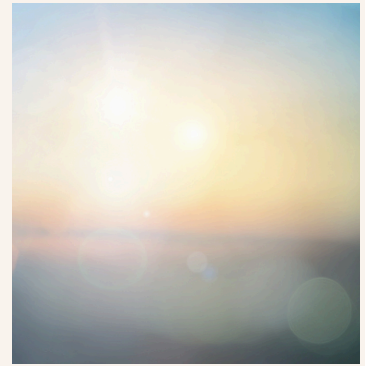

Core

Start here if you haven't screened in a while. Covers the essentials: blood, organ function, heart, and a doctor's review.

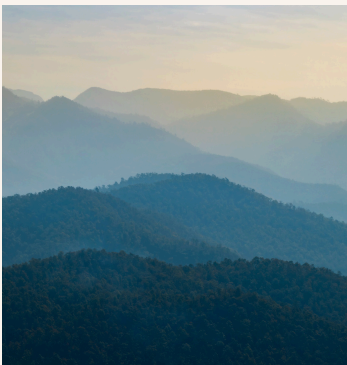

Ember

Same foundation as Core, with one add-on test of your choice. Good if you have a specific area you want to keep an eye on.

Eunoia

A step up for those who want a more thorough picture. Includes two imaging or specialist tests on top of a broader lab panel.

Noir

For a deeper look across multiple systems. Includes three tests of your choice plus one specialist test.

Ivory

The most comprehensive option. Covers everything in Noir plus a full anaemia panel, hormone profile, colonoscopy, and four imaging tests of your choice.

Not sure which package suits you? Visit our website to find out what each package covers:

A focused, essential health assessment covering your major organ systems, giving you clear baseline insights for preventive care. Ideal as a simple yet meaningful first step.

Medical Assessment

- Doctor Consultation & Physical Examination
- Medical Review
- Height & Weight Measurement
- Body Mass Index (BMI)
- Waist & Hip Circumference
- Body Fat Measurement
- Blood Pressure Measurement
- Visual Acuity
- Colour Vision
- Tonometry

Haematology

- Full Blood Count
- Erythrocyte Sedimentation Rate (ESR)
- Peripheral Blood Film

Diabetes Screen

- Glucose
- HbA1c

Lipid Profile

- Total Cholesterol
- HDL Cholesterol
- Triglycerides
- Total Cholesterol / HDL Ratio
- Cholesterol LDL (Direct)

Liver Function

- Total Protein
- Albumin
- Globulin
- A/G Ratio
- Total Bilirubin
- Alkaline Phosphatase (ALP)
- SGOT (AST)
- SGPT (ALT)
- GGT

Kidney Function

- Urea
- Creatinine
- Sodium
- Potassium
- Chloride
- eGFR
- Urine Microalbumin / Creatinine Ratio

Urine

- Urine FEME

Heart Function & Risk Markers

- Resting ECG
- 12-lead Electrocardiogram
- High-Sensitivity C-Reactive Protein - hs-CRP

Tumour Markers

- AFP (Liver)
- CEA (Colon)
- CA 125 (Ovary)
- PSA (Prostate)

Hepatitis Screen

- Hepatitis A Antibody (HAV Av)
- Hepatitis B Surface Antigen (HBsAg)
- Hepatitis B Surface Antibody (HBsAb)

Thyroid Screen

- TSH
- Free T4

Bone & Joint Screen

- Calcium
- Uric Acid
- Phosphate

Digestive Health

- Stool Occult Blood (Immuno)

Radiological Investigation

- Chest X-Ray
